WHO PAYS FOR SILCOTT?

The Court of Claims to Settle the Vexed Question.

WASHINGTON, Dec. 17.—[By the Associated Press.] At the session of the Silcott Defaleation Committee today, a majority favored an appropriation bill to cover the

deficiency, but the minority opposed it, The committee reassembled after adjournment for an hour, and resumed consideration of the legal points involved, and pracically reached an agreement on a measure

tion of the legal points involved, and practically reached an agreement on a measure which may be regarded as a compromise between the diverse views of the membera. This measure will provide for reference of the subject to the Court of Claims, which ribunal is to determine the responsibility for the defaication, and adjust the claims of members who lost money, it it follows from their findings that they are entitled to reimbursement by the Government. Another meeting of the committee is to be held to perfect the form of the measure and agree upon details yet unsettled.

The bill and report were drafted tonight and will be presented to the House tomorrow. It is understood that the committee is of the opinion that the Sergeant-a-Arms was, under the statute, a disbursing officer of the Government during the recent Congress; Dut, in order to remove all question as to the loss being one which the Government should not only equitably but legally bear, it will be recommended that the matter be referred to the Court of Chalms. Provision will probably be made for an appeal to the Supreme Court, if thought best. The bill will give precedure to this case over all others before the court. will give precedent

tion, and whether such organizations are compatible with proper discipline.

Mr. Hale asked that the resolution be laid over, and it was done.

Mr. Manderson offered a resolution, which was agreed to, calling on the Secretary of the Interior for imformation as to the disposition of lands comprised within military reservations that have been relinquished by the War Department.

Mr. Mitchell withdrew the resolution offered by, him last week in reference to the failure of the Pension Bureau to farmish him with copies of certain papers in a pension claim. Commissioner laum had sent him the papers, with a letter stating that the refusal to furnish them had been based on an old regulation of the office, which seemed a judicious one, in order to prevent waste of the effective strength of the office. Mr. Mitchell remarked than any Senator, Representative or duly authorized attorney of an applicant, or the applicant himself, should have a right to copies of the papers. There was a brief discussion on this point.

Mr. Mitchell offered a resolution, which was referred to the Postoffice Committee, calling on the Postonsater-Ceneral for estimates of the increased cost required for the extension of the free-delivery system to all towns and cities having not less than 3000 inhabitants, and where the gross postoffice revenue is at least \$5000; also to cities and towns of 5000 inhabitants and where the gross postoffice revenues of \$7000.

House.—The session of the House was brief. After introduction of a few bills a resolution offered for calling the States alphabetically for introducing bilis was referred to the Committee on Rules. As nothing could be done, the House adjourned.

MEXICAN CLAIMS.

Washington, Bec. 17.—|By the Associated Press.] The executive session of the Senate this afternoon lasted more than two hours. The principal topic under discussion was the confirmation of Judge Brewer to be Associate Justice of the Supreme Court. This was called up by Senator Ingalls upon the favorable report of the Committee on Judiciary. Although no minority report was presented, the confirmation of the momination was opposed by Senators of both parties, it is said, who based their objections upon two grounds: First, his decisions in the probibition cases in Kansas, which were afterward reversed by the Supreme Court; second, that in the statement of the facts in Judge Gresham's review of the facts in Judge Gresham's review of the associated of the receiver of the Wash system of railroads by Judge Brewer, whose order in the case Judge Gresham's review of the associated the composition of the facts in Judge Gresham's review of the teached of the receiver of the Wash system of railroads by Judge Brewer, whose order in the case Judge Gresham's review of the teached of the receiver of the Wash system of railroads by Judge Brewer, whose order in the case Judge Gresham's review of the teached the composition of the facts in Judge Gresham's review of the teached of the receiver of the Wash system of railroads by Judge Brewer, the continuity of the problem of the facts in Judge Gresham's review of the associated the composition of the facts in Judge Gresham's review of the facts as stated in Judge Gresham's review of the facts as stated in Judge Gresham's review of the facts as stated in Judge Gresham's review of the facts as stated in Judge Gresham's review of the facts as stated in Judge Gresham's review of the facts as stated in Judge Gresham's review of the facts as stated in Judge Gresham's review of the facts as stated in Judge Gresham's review of the facts as stated in Judge Gresham's review of the facts as stated in Judge Gresham's review of the facts as stated in Judge Gresham's review of the facts as stated

The Four Convicted Murderers Now Indulging in Hopes of a New Trial - Suspect Wood-

By Telegraph to The Times.

CHICAGO, Dec. 17.—[By the Associated Press.] State's Attorney Longenecker this evening, after a conference with one Cronin jury, whose name he withheld, told how the verdict was reached. As sur-mised, Juror John Culver, who spent much of hisspare time during the long evenings in reading the Bible, was the influential fac-tor. The first incident in this connection occurred while the trial was in progress, at the time when Mrs. Conklin testified. That evening Culver notified his fellow-that he solemnly believed she had mitted perjury. Later Mrs. Hoertel, he thought, was a liar, and Martenson, the expressman, did not really know Burke, while the Carisons were plainly telling falsehoods. To illustrate as to Expressman Matenson, Mr. Cuiver told of a mistake made by the wife of his partner, who one day saw a man riding in a burgy whom she was

by the wife of his partner, who one day saw a man riding in a buggy whom she was sure was Culver, when, in point of fact, ahe was entirely mistaken.

Culver seemed to see in nearly every witness for the State a vindictive or purchasted like a conspiracy on the State's part. The matter of having the witnesses under charge of detectives was one of the things he thought looked bad. He was not sure that Dr. Cronin ever wout to the Carison cottage, and when asked, "How do you recount for the bloody trunk?" said: "Why, for all we know, a dog may have been taken

count for the bloody trunk?" said: "Why, for all we know, a dog may have been taken in it." The cause of Cronin's death had not been proved, he contended, and he was impressed with the idea that Dan Coughlin had a "good face."
When the time for balloting arrived Culver voted for the acquittal of all the defendants. He steadfastly declared that Beggs, particularly, he would not send to fall even for one day. The result was a long struggle and repeated ballots, ending in the compromise verdict announced.
Farmer Plerson had voted steadily for the execution of all five defendants, and was the last man to yield. It was he who was

The leading thought of a majority of the jurors, other than Culver and Piston, seemed to be to prevent a disagreement. They apparently believed that a mistral was what had been aimed at by the defeated.

Why She Killed Him. JEFFERSON CITY (Mo.), Dec. 17.—The Coroner's jury today returned a verdict of justifiable homicide in the case of Miss Epperson, who yesterday shot and killed Julius Hoffer, her father's farm-hand. It was developed at the inquest today that Hoffer had endeavored to criminally assault the girl, and only desisted when other hands came to dinner. Then it was that Miss Epperson got a revolver and killed him.

HIS DIVORCE CASE AT LAST ON TRIAL.

Some of Mis Remarkable Idiovyn-crasies Described by His Wife—Depravity that Seems to Have Reached a Lower Level than the Garrett Case.

The judicial investigation of the domestic troubles of Rev. G. W. James and his wife began yesterday morning before Judge Clark, in Department No. 2 of the Superior Court. Last spring Rev. Mr. James was accused of scandalous things in connection with his pastorate of the Methodist Church at Long Beach, and there was a very sensational investigation of his conduct by the church, which resulted in his being held over to the conference for a final trial. Before that time arrived he resigned from the ministry. His wife brought suit against him for divorce, alleging cruelty, and he in the months to Eureka, where he was preaching.

Judge Clark remarked that a strong and brilliant man like the defendant ought to be able to make something for the support of his wife and children, and declined at that time to set aside the order for alimony.

Mr. Pollard then read the complaint and answer. The former alieges that the cruelty of the defendant consists of threats to kill her, and rendering her life miserable by an ungovernable temper and various other acts, while the answer denies all the charges generally, and charges Mrs. James with having committed adultery with his brother, C.W. James, and with a Dr. Gregg, in England; also, that his wife has been insanely jealous of him, and has faisely accused nim of improper intimacy with a large number of women at various places where they have lived; that he is of delicate constitution, and that his wife's unconjugal conduct has almost driven him to suicide

FRISCO WORKING AGAINST LOS ANGELES

Trying to Get the Union Pacific and Gould Lines Away from Us-Necessity for Our People to Wake Up-The Surf Line in Bad Shape.

"It might be advisable for the citizens of Los Angeles to wake up to the fact that San Francisco is making a gigantic effort to get the Union Pacific and Jay Gould to give

get the Union Pacific and Jay Gould to give this section of the country the go-by," said President Jones of the Chamber of Com-merce to a Trius reporter yesterday.
"It is true that Mr. Gould and the Union Pacific officials are preparing to come to Los Angeles, and two contracts for the Union Pacific extension have been let, but railroad magnafes are not different from other mormagnates are not different from other mor-tals, and the San Francisco people are offer-ing all kinds of inducements. They have had their agents at work among the eastern ing all kinds of inducements. They have had their agents at work among the eastern railroad men several weeks, and we all know that it is easier to lobby among railroad men than in the halls of Congress. The san Francisco people are hungry for an opposition line. They have been ited down to the Southern Pacific so long that they have become desporate, and they will move heaven and earth to get an opposition road to go direct to them and leave Southern California out. They have their very best workers with the projectors of the new lines to the coast, and it is hard to tell how the thing may end unless we arouse ourselves. We want to send at least one inan to Salt Lake at once, and probably on east. We mant offer these people some inducements to come here. At present we can't even give them terminal facilities. We have deeded away the last opening into the city for a railroad, but something must be done, and done quickly. The San Francisco capitalists will spend thousands of dollars in carrying out their schemes, while we sit back here and suck our thumbs. So far we have salled along in a sea of good luck, but when we have such determined enemies to contend with as the San Francisco people, it is time for us to wake up."

"What do you propose?" asked the reporter.

"I hardly know, but I am of the opinion

"What do you propose?" asked the reporter.
"I hardly know, but I am of the opinion that our bankers and large land-owners should come together at once and pick on some good man and send him East. We want a man who can stand off the men who have been sent back by the northern people. We can't afford to take any chances on the coming of the Union Pacific and Mr. Gould's lines, and I would advise our backers and land speculators to come together in the rooms of the Chamber of Commerce, as soon as they can call a moeting.

pankers and land speculators to come together in the rooms of the Chamber of Commerce, as soon as they can call a moeting.
This matter should be worked just as carefully as we work for an appropriation. The
chamber would do it, but we have no money
and we must look to our wealthy men. I
hope they will get together next week, for
we cannot afford to let this slip through our
fingers."

All of the damage done by the late rains
has been repaired except on the surf line of
the Sants Fé to San Diego. The washout
on this line was about one mile in length,
about 10 miles this side of San Diego, and
it will be several days yet before the track
is repaired. At present passengers are
taken to Oceanside, from which point they
are transferred to San Diego by steamer.
All of the trains on the lines were on time
yesterday.

All of the trains on the lines were on time yesterday.

A big Kaymond excursion will be in over the Sauts Fé from the East tomorrow.

President Manvel will knock family passes in the head the first of the year. He has ordered all the annuals taken up on the lat of January instead of the 10th, as in the past, and the new passes will leave the wives and families of officials and employés out in the cold. In the future there will be no lady deadhoads over the Santa Fé lines.

The other roads will probably follow suit.

Jay Adams of the Chicago and Alton was a happy man yesterday. His vice prewas a happy man yesterday, sented him with a 9-pound by yesterday morning, and hy 0 railroad man in the city the event.

The Southern Pacific's Pacific Coast Steaman

Preparing Their Report on the Sewer System.

The engineers who are wrestling with the sewer proposition are hard at work on their report, which will be submitted to the Council at its meeting Monday next. City Engineer Eaton, Rudolph Hering and the other engineers composing the board made the trip over the Ballona route, as outlined several days age. This completed what might be called the field surveys, and the sort of life no longer. The letters were alternately cajoling and flattering. At this point court adjourned until this morning at 10 o'clock.

A JURY AT LAST OBTAINED FOR THE GARRETT TRIAL

efendant's Attorneys Stir Up a New subscriber for "The Times"-Parcells vs. Parcells - A Very Funny Case from Lancaster - A Blacksmith's Administration of

The Garrett case got fairly under way yesterday, the jury being completed at noon, by the selection of H. M. Sargent of Pasadena, J. T. Buchanan of Pasadena, and Slias Morton of Trepleo, the other jurors being Henry Lowe of Ballona, John D. James of Froilland, Reuben A. Meridith Of Azusa, Charles A. Abbott of Artesia, H. M. Reed of Pomona, Horace C. Baldwin of Whittier, Z. Eidridge, city, T. J. Emerick of Pomona, M. Norton, city.

rs. Williams and Bell put about the line of questions to the talesmen that did the day before, speaking in bitter and sarcastic terms of the horrid press of the city, and trying to exclude particularly any one who had read THE TIMES. They even got down to the question as to what papers in the city a man is a subscriber of, and received some pat answers occasion-ally. Upon asking J. T. Buchanan of Pasally. Upon asking J. T. Buchanan of Pasdena if he subscribes for The Times, that
gentleman replied that at present he is not
a subscriber, but that it seems to him that it
is a newsy paper, and he would come down
and subscribe for it before he went home.
Mr. Bell swelled as usual over this
answer, but finally the juror was accepted,
in spite of the fearful crime of a threatened
subscription to The Times.
There was also an evident antipathy by
the counsel for the defense to church members, and any one who confessed to a
church connection was viewed with elaborate suspicion by them, and also by the defendant.

nury was completed, and the defense dismissed most of them.

The first witness put on by the prosecution was the mother of the complaining witness. Mis. Daniel of New Orleans. She testified at greater length than at the previous trial as to the facts of her betrayal by Garrett when she was a young girl between 14 and 16 years old. She with difficulty controlled her emotion during the ordeal. The defendant ruined her while she was living at his house, and while his wife was living at his house, and while his wife was living at his house, and while his wife was living thera. He afterward had her taken to the Charity Hospital, where Malia was born. Afterward he took the child, promising to care for her, and disappeared from New Orleans so effectually that she obtained no trace of them until a few months ago, when Garrett sent a detective to hunt her up, with a proposition to swear him out of the trouble he is in. Mrs. Daniel's testimony was very clear and direct.

Mrs. Edgeomb was then examined, and

rect.

Mrs. Edgeomb was then examined, and told the story, which has now become so widely known, of the dreadful degradation to which she was subjected by her father. Mr. Williams conducted the cross-examination, and even his brutality was lessened by the evident distressed condition of the witness, who is soon to become a mother. Very little that is new was brought out in the examination of the witness. At the conclusion of her testimony court adjourned until this morning.

with the traditional peculiarities of mothers-in-law, the stirrer-up of strife and contention between himself and the wife of his bosom. He said that they taught his little child to drink beer, much against his wishes, and did various things to lay stumbling-blocks in his path. Mr. Parcells denied that he was a habitual drinker of intoxicants, and that he never struck his wife as she alleges he did, either with a cane or a pair of boots. The case was not finished when the court adjourned for the day.

A LANCASTER JUSTICE. How to run a justice court in and around Lancaster was the subject of an examina-tion before Justice Lockwood yesterday, when Constable Joseph Johnson was rought out upon the charge of allowing prisoner to escape which is a felony under the statutes of the State. Johnson, it a charged allowed two success to sweet

brought out upon the charge of allowing a prisoner to escape, which is a felony under the statutes of the State. Johnson, it is charged, allowed two vagrants to swap places with some prisoners he was bringing to the County Jail. There were several weeks ago, and a trial was held by Justice Charles B. Hall, who is also a blacksmith. The trial was somewhat informal, being held at the anvil in the blacksmith shop, the Judge stopping a job of horse-shoeing, and wearing his appn at the time. It was necessary for some reason for Constable Johnson to have four prisoners to bring to town, and Justice Hall convicted four of the batch of "vagg," giving them 15 days each in the County Jail. Then he resumed his work on the impatient horse, who was obliged to wait while His Honor transacted the trifling plece of legal business.

Constable Johnson started with his prisoners to the depot, and, while on the way, two tramps were encountered, whom one of his prisoners, John Thomas, a colored man, knew. They wanted to get to Llos Angeles and proposed to swap with Thomas and another prisoner. Constable Johnson was spoken to about it, and said that would be all right. The exchange was effected and the batch of genuine and bogus prisoners were brought to the city, the other two being allowed to go about their business. Unfortunately, John Thomas was run in at San Fernando and sent up for five days for vagrancy. He told the story of the exchange, chuckling very much over the fact of his having swapped out of a 15 days' sentence, and got to the city with a five days' sentence, and got to the city with a five days' sentence, and got to the city with a five days' sentence. His exposure of the scheme, however, was bad for the Constable, who was soon arrested.

The examination yesterday lasted all day and was not finished. There was considerable amusement over the examination of the "vags," to whom it was a regular circus to be in a position to get back at one of the class of officers who so seriously interfere with their vagabond existen

The United States Grand Jury made its final report yesterday. It was impaneled in August and this is the third report made by the body. Since its former partial report five charges have been investigated, three for selling liquor to Indians, one for cutting timber on Government land and one for rape.

It returned two indictments — one against Francisco Ward for rape, which is a capital offense under the United States statutes; and another for selling liquor to Indians against John Smith of San Ber-

yesterday the following cases were set for trial: J. P. Goytino, forgery, January 6th; William Lanagan, murder, January 13th; W. F. Wheeler, writing a threatening letter, January 20th; Sam Kee, January 25th; Walter Wooleny, receiving stolen property, January 24th; C. F. McDonaid, murder, January 28th; J. F. Bedwell, obtaining money under false pretenses, January 30th. The indictments against ex-Auditor A. A. Montaño were taken up, and Judge Cheney, in indictment No. 635, denied the motion to quash it, setting December 23d for the defendant to plead; in indictment, No. 671 the motion to set it aside was granted, and it was referred back to the Grand Jury for amendment. In this indictment the name of one witness was spelled wrong, and one or two witnesses not given on the document.

NEW CASES.

A. L. Burbank brought suit against L. W.
Dennis et al. The plaintiff states that he
brings the suit on his own behalf and upon brings the suit on his own behalt and upon the behalf of all other dissatisfied stockholders of the San Gabriel Valley Land and Water Company. He prays for an accounting, alleging that L. W. Dennis, John P. Sanborn and Frederick D. Sanborn cheated the stockholders by selling them land at a large increase over what they gave for it, and that they never did pay anything as they alleged. The land was sold to them for \$193,665.67. The plaintiff asks that the defendants be decreed to pay the corporation \$93,000.

A petition was filed for the probate of the will of Michael Kelleher, deceased, by John Farrell, the estate being valued at \$250.

James Hammell brought suit against Joseph Weisiger, Simon J. Gray and John Spence, to foreclose a vendor's lien on certain property, the amount involved being \$8903.62, being the balance due on a \$15,000 land transaction.

A foreclosure suit was brought by James

"Your Honor," at one time flared out Mai, Bell. has Deputy Reel summoned the whole of Pasadena for his panel; has he copled the subscription lists of the papers?"

This was a little more than Deputy Reel could stand, and he said:

"Your Honor, this is an intelligent community, and the people read. If Maj, Bell expects me to get men who don't read, ne will have to send me to some blind asylum.

Mr. Williams tried to bring up the rear guard to his coadjutor, but the Court squelched him, and made them go on with their examination.

Why does F. J. SMITH. Central and Vernon avenues, sell goods cheaper than any other house in town? Because he owns he building and has no rent to pay; has no loss on bad bills, and his daily expenses do not exceed \$3, while other stores have to add 5 per cent, for loss on bad bills, and their daily expenses are \$7.50 to \$8 per day. This, you see enables him to sell cheaper than his competitors possibly can without a loss.

TWO DOLLARS A YEAR.

From and after January 1, 1890, the subscription price of the Los ANGELES WEEKLY MIRROR will be \$2 a year. (See detailed announcement in another place.) New, costly and valuable features recently added to the favorite weekly more than justify the advance in price, which was only temporarily lowered. Present subscribers will of course receive the paper for the full term for which they have paid.

"Suspended moral animation" the expression invented by the New York Tribune apropos of the extortions of the church-fair season. The expression is neat, but by no means gaudy, and is more or less choke full of congealed truth.

THAT was a pleasant, hearty and and of achievement which was given last night by citizens, in the form of a banquet, to Superintendent Robinson of the city cable system. Mr. Robinfinally, we trust. If he ever attempts to leave Los Angeles, we shall move to have him halted at the city line, brought back and tied up, if need be one of his own cables. Fair warning, Senor Cabellero!

THE New York Heraid, as usual, is equal to the occasion-to all occasions that arise in journalism. Having given a full page description to the Papal bank, having dignified it with a picture of His Holiness, the Pope, having printed a fac simile of what it was pleased to call the Holy Father's beneon on a certain Saturday, it graclously came to the front on the Mon day following with a declaration, "The le affair is considered a fraud."

THE Chicago Tribune takes notice of fact, which sticks out on the face ant, that "It does not take long for a ody was sending money and provisions to stricken Seattle, and now the sportg fraternity of that place is offering to have the Sullivan-Jackson ght take place there. Seattle has alet forgotten it ever had a fire."

Mr. Cole is appointed to fill a acancy caused by the resignation of Mr. George J. Denis, which took place some months ago-Mr. Hutton acting ad interim. Mr. Cole was very strongly recommended, and being the son of an ex-United States Senator, enjoyed exceptional advantages in the shape of influence. Senator Stanford supported him, and though he was not Representative Vandever's original choice, it is understood that he swung around to the young attorney's support in the end. The principal objection raised at first to his appointment by Attorney-General Miller is known to have been on account of his youth and inexperience, and the Attorney-General's desire to secure an officer fully capable of haudling the very important land cases which are on, or liable to come before the United States Court for this district. It has been learned that the qualifications of Mr. Cole were very fully discussed, and he appears to have satisfied the President of his fitness, else the appointment would not have been made. He is a young

In the Marshal's office, Maj. Gard takes the place of Capt. Risley, against whom serious charges were made in connection with previous experience in the Government service as an Indian agent. These charges were in the form of an official Congressional report, and one familiar to readers, as they were resurrected about a year ago and first published here in THE TIMES. The existence of these charges appears to have made it impossible for the Administration to adhere to its rule of permitting the officer to serve out his term; hence the implied removal by the appointment of another person-s Republican, as a matter of course.

scend. THE OHIO POLITICAL SCANDAL

Studious efforts to connect Gov. Foraker with the manufacture of the Wood forgery, which played an important part in the closing days of the Ohio campaign, have resulted only in showing that he was deceived by the representations of a bad man. The New York Press editorially sets out facts in the case, which can be stated, in substance, briefly.

The single communication on which reliance is placed to show that he was deserved testimonial to a man of action guilty of any other connection with the matter is the clearest evidence of his innocence. Wood telegraphed to Foraker in August that he was a candidate for Smoke Inspector at Cincinson is now "one of us," fully and natt, and asked if the Governor would help him. This was the reply:

Answering your letter of the 16th inst, you will get a letter of recommendation rom me, as I promised you, when I get he information you promised to give me, but not before.

The same journal makes the pertinent point that Gov. Foraker did not hold the smoke inspectorship in his gift, and shows that it is plain enough Wood had claimed to possess certain information, which he establish by documentary proof, affecting Gov. Foraker's antagonist. He had promised to produce it, but had not done so. When he appealed to the Governor for assistance in getting the office it was quite natural for Mr. Foraker to hesitate, and to say in effect: "I am not certain that I can recommend you as honest. You told m things that you promised to establish of things like a wart on the nose of a by proof, but have not so established. When you tulfill your promise I shall western city to recover from a have sufficient confidence to recomscorching. A few months ago every- mend you, but not before." Gov.-elect Campbell is demanding Congressional inquiry. Will be (demands the Press) consent to let it cover all the ground? At the bottom of this whole matter stands a bill, introduced by him in Congress, which provides for the purchase of 72,000 patent ballot-boxes at \$25 each, which can be made and sold at a fair profit at \$10 each. That means a clear "steal" of \$1,080,000. If the Governorelect and his advisers are determined, as they say, to go to the bottom of the attack on him they must be prepared to open up all the avenues of inquiry. Mr. Campbell's connection with the 'steal" mentioned has never been fully explained. It should be, since Campbell has assumed the aggressive.

WASHINGTON (D. C. Dec. 6.-[Spe cial Correspondence to THE TIMES.]
There are more new embers elected There are more new embers elected to the lower House of congress at this session than at any process before, and a very large percentage of these had never been in Corress before, and a very large percentage of these had never previously litted Washington. There saids to have been a grand up eaval of public sentiment and so dewhat general dissatisfaction at the id members. It is a good thing to have a change in Congressmen as well s in other matters. After being it two or three terms they generally at as if they not the Government also. This also holds Congressmen as well s in other matters. After being it two or three terms they generally at as if they not only own the district they represent, but the Government also. This also holds the Government also. This also holds good in department officials. A more truculent class of people to their superiors, and insolent to all others, has never been found anywhere, and here in this city is found the greatest argument for the repeal of the civil service law. Year by year the officials become more and more of a "p ivileged class," and inclined to monar hial rule.

Of the 329 members the House of Representatives, only two were absent, and that on account of illness. This per cent., or rather almost total attendance, argues well for the zeal of the new Congress, and shows a desire to get at business early.

There are also more new press correspondents than ever before. The "old stand-bys" are being gradually weeded out, and their places taken by men of brighter ideas, whose faculties have not been deadened by following in the "rut" of the old-time journalists, who could write but could not think.

AFTER LOWER CALIFORNIA.

I called upon Representative Van-dever the other night. He showed me a joint resolution he intended introa joint resolution he intended introducing empowering the President to enter into negotiations with the President to Mexico for the purchase of Lower California. This would then give Southern California emough territory and population to justify a division of, the State. But, on the other hand, the sage-brush borough of Nerwada would sit up on its hind pedals and ask for a slice of California to save that impoverished State from being disestablished; as now, since the mines have become practically exhausted, the chief means of livelihood of those people is in Government relief bills and elections. The only way to silence Nevada would be to give her a slice of Utah. By slicing up Utah, Nevada would then be better able to support a State government, and Idaho and Wyoming could come in as States.

Gen. Vandever will also introduce bills for the improvement of the harbors of San Pedro and San Diego, and to make Los Angeles a port of immediate delivery, to which point goods can be shipped and payment inade on delivery.

COAST D. C. 1885.

I also called ou flow. I could a Ofunie the other night. He stated that he insended introducing a bill providing for the other night. He stated that he intended introducing a bill providing for the fortification of the Pacific Coast from San Francisco to the line of British Columbia. "There is nothing now," said Mr. Clumie, "to prevent Great Britain or any other foreign power from sending a fleet up the coast, burning these towns and levying a war tribute. The Pacific Coast receives only about 3 per cent. of the general appropriations of the country; our unprotected commerce warrants more, and I think we shall get it at this session of Congress,"

more, and I think we shall get it at this session of Congress."

Mr. Clunie will also ask for a decent postofice building at San Francisco, and a Government building for the general offices and Government officials; also, for a postofice building at San José; yet, I cannot see what that slow town wants with a pestoffice.

The talk about the western members "standing in" together on the Speakership matter was all talk. They came straggling in just a day or two before straggling in just a day or two before election, or rather caucus day, and they went into caucus without having agreed upon any united line of action, or without having even met each other and gotten acquainted. They went into the caucus with four western can-didates and had the members from the far West decided upon either of these western candidates, they have exercised enough power to have commanded some influence in the se-lection of committee members; for, even in the defeat of their candidate, their influence would have commanded recognition. The representatives from the new States seem to be lacking in force—there is not aleader among them, and there does not seem to be much in them that is worthy of their being led. Gen. Vandever told me that the rea-

Gen. Vandever told me that the rea-son he voted for Cannon of Illinois was that he was sound ou all matters that particularly interested the West. Representative Herman of Oregon was not present at the first ballot, but on the second voted for Reed. Mr. Herman told me: "I saw that Reed would be elected, so I voted for him in order to get a good representation on committee; that was the most expedient thing to do, and the best compromise I could make. I am sorry that Representative Wilson of Washington did not have enough policy to do the same thing. I saw a vacant seat on the band-wagon and I got up. I am afraid that the new State of Washington will not figure prominently on the com-nittees, but I will endeavor to get Wilson on some good committee initiees, but I will endeavor to get Wilson on some good committee. Well, I think that I will be on the Committee on River and Harbor Improvements; that is the most important committee for the West and I hope I

THE FAR WEST IN CONGRESS.

Morrow and McKenna — Peculiar Methods of Some Congressmen.
Washington (D.C.), Dec. 11.—[Special Correspondence of The Times.] 1 have talked with quite a number of Correspondence of the Times.] Congressmen from the middle West-ern States, also Representatives from the East, and the general sentiment is that the policy toward the far West in the matter of appropriations will be more liberal, or, rather, just, than during the past few years. This is mainly due to the fact that the far West has come prominently forward by a system of judicious advertising, and now everybody knows that there is a counmore. Then, with Arizona admitted, and perhaps Idaho and Wyoming by the division of Utah between them, the far West will swing the balance of power. The division of California, which is being discussed as among the which is being discussed as among the early probabilities, will give us two ad-ditional Senators for the West. So, if "Our Own Steve" White wishes to be the next Democratic Senator from California he had, perhaps, better ac-quire a "technical" residence in the northern portion of the State, as has been the custom of the San Francisco statesmen who were elected to the United States Senate from Nevada. The appointment of Morrow and Mc-Kenna to the Ways and Means and Appropriations Committees may either be considered a concession to the growing power of the West, er to their influence with the Speaker in having

voted for him.

However, had all of the western men centered upon a western candidate. However, had all of the western men centered upon a western candidate, they could have elected him, and have secured not only important places on the committees, but the committees themselves would have been so shaped as to secure legislation beneficial to the leading interests of the West. As it is now, matters point toward the in-terests of the "gold bugs" of Wall street, who especially championed an extreme eastern candidate.

AN OLD SCHEME REVIVED. And now it is again proposed that every member of Congress be given a clerk at the expense of the Government. This comes up nearly every session, being generally introduced by some new member. The old member some new member. The old member is generally too smart to father such a steal. There is no doubt whatever that a large majority of the members of the House need a clerk very badly. In fact, all who represent any district of any commercial importance have clerks; and those haves and members who represent corn portance have clerks; and those hayseed members who represent corn portance have ciers; and those hayseed members who represent corn and pumpkin districts need clerks not so much for the information of their constituents as for their own. There are some Senators who would not have such reputations at home for greatness were it not for their secretaries. It is only Representatives who have "clerks;" the Senators give them the more dignified name of "secretary."

The steal of Silcott has brought to light the pawn-brokerage business of the Sergeant-at-Arms; and, also, the additional fact that some of these "dead-beat" Congressmen who profess to have lost such large sums, really lost nothing. They discounted their warrants, and when the thief got the money from the Treasury he only got what he had already paid to the "fast" member, with about 15 per cent. off for advancing.

There are dead-beats here ever among Congressmen. There is one from Mississippi somewhat notorious in "standing off" his creditors and spending his money in orgies with women of a shady character, and equally unsteady gait as himself. I have been told of other instances where they leave their board bills unpaid. Before I would believe the statement of a Washington boarding-house-keeper, however, I would require corroborative evidence; yet this is not the most serious charge against some the most serious charge against some Congressmen. Some moralists agree that people are controlled by surround-ing circumstances; others hold that if ing circumstances; others hold that if a person becomes corrupted he was innately bad. However, the fact exists that Congressmen whose record as debt-payers before they were elected was very good is now the reverse. It is brought about by themselves. They bring on their families and attempt to get in the swim by living extravagantly, and financial ruin and often social disgrace is the result. Here is the other side: A thrifty Southern Congressman sells some of the public decuments, which are a little too elevated for his understanding, and converts if for room rent. A Louisiana member has been re-

ing.
There are dead-beats here ever

A Louisiana member has been re-turned twice solely on his "garden seed" record. He would "swap" with seed" record. He would "swap" with other members every document he was entitled to for additional agricultural reports and garden seeds, and load down the mails and his constituents with this food for the body and the mind. In fact, the mail service in some portions of his district had to be increased to carry this immense amount of plunder to his benighted but appreciative constituents. A HEARTLESS DAUGHTER.

Here is another, but a very picture of Washington life, A few days ago the local papers printed the statement that Richard Bowie, aged 84 years, and a relative of ex-Gov. Bowie, is in the poorhouse. He was once wealthy, and raised a large family, all of whom are in good circumstances in this city, and every one of them refuse to do anything for the old man, who is now dying in a poorhouse garret. One daughter, Mrs. E. B. Stone, is a "society woman," and refuses to help her father. One of her letters written, about a year ago, has been dug up and published, in which she states that about one year previously she gave 84 years, and a relative of ex-Gov. will get on it."
So, from the lack of unanimity, the about one year previously she gave him \$29, and that he had no claims upon her, and that she "did not wish to hear from him again." No matter what quarrels there might be between children and parents, it seems that with the father tottering on the brink of the grave, and absolutely starving, that ordinary humanity would prompt a person to charity, if not to filial duty. This is a sample of one of Washington's 400; and her brilliant costumes are elaborately described in the about one year previously she gave Mr. Edward Curtis of San Francisco, a delegate to the recent silver convention at St. Louis, is at Willard's Hotel, and occasionally looks in on the assembled statesmen to note any possible is sembled statesmen to note any possible legislation on the silver question, in which the West is most interested.

A BOOM IN STOCKS.

Exciting Scenes on the Mining Exchange in Denver.

DENVER (Col.), Dec. 17.—[By the Associated Press.] The most notable event in the history of mining in Colorado and the West, according to the testimony of the oldest operators of the country, was the sale of Pay Rock stock on the listing of that mine on the board of the Colorado Exchange today. The Chamber of Commerce was crowded to suffocation, and when the stock was called excitement became in-tense, and before the close of the second tense, and before the close of the second call the whole of the treasury stock, amounting to 2,000,000 shares, were sold to the most substantial banking and mining men of the State. The interest was so great that many ladies seated outside of the pit called brokers to them and gave seares for thousands of shares. At the close of the first call St. Louis brokers wired orders for 300,000 shares, which beats one day's record on any exchange in America.

CHICAGO, Dec. 17.—The Interstate Commerce Railway Association met here today nsider the matter of the Union Pacificto consider the matter of the Union Pacific-Northwestern combination. Rock Island and St. Paul had joined in a complaint to Chairman Walker, asking him to construe the legality of the combination under the association's agreement. He declined to do this, except on the vote of the association, hence today's meeting. All lines were represented, except the St. Louis and San Francisco. The matter was argued warmly, and finally was referred to the chairman for investigation and decision as to whether the agreement had been violated. He is to report to the New York meeting of presidents in January.

Destitution in South Dakota ST. PAUL (Minn.), Dec. 17.-The Pic neer Press's special from Pierre says: Gov. The session was occupied in adopting a set of bylaws. Representatives of the St. Louis American Association Club were present, hoving to arrange for admission to the Players' League.

At the afternoon session the report of the Committee on Playing Rules was taken up. The most important change was a provision to have two umpires at each game, one behind the bat and the other in the field. The pitcher's box was enlarged to 6 feet by 4. Tim Keere's ball was adopted. At the evening session, by the adoption of the report of the Law Committee, Judge Henry Bacon was engaged as general counsel of the league, with power to employ the best legal talent in various cities. Judge Bacon was instructed to carry on not only a defensive, but an aggressive campaign. The constitution and articles of agreement were adopted and signed for the clubs by their representatives on the board of directors. The convention then adjourned until March, the place of meeting to be selected by the president.

No communication was received from the St. Louis club in relation to application for

by the president.

No communication was received from the St. Louis ciub in relation to application for membership, and it is likely there will be none, as Pittsburgh, the doubtful city, has come forward with its \$5000 and signed the constitution and articles of agreement with the other clubs.

PARNELL ONCE MORE ON THE STUMP.

Boulangists Get a Black Eye in The Chamber of Deputies-Swift Justice for Old

Bushiri, By Telegraph to The Times. By Telegraph to The Times.

LONDON, Dec. 17.—|By Cable and Associated Press.| Parnell, who is to speak in reply to the speech recently made by Lord Salisbury at the Conservative gathering at Nottingham, arrived in that city today. A great crowd at the railway station greated him with groans and cheers. Parnell addressed a large meeting this afternoon.

He declared that there had never been a movement of such magnitude to the country

novement of such magnitude to the country which was so comparatively free from crime as the land league movement. The object of the home rule movement was to regenerate Ireland, especially with regard to its in-dustrial condition. Balfour's plan of makate Ireland, especially with regard to its industrial condition. Balfour's plan of making rallways through the impoverished districts was a vain expenditure of money.
Home rule aimed at mitional regeneration,
and this implied regeneration of the industries and industrial and commercial spirit
of the people. If home rule were granted it
would not discourage the rich people of
England from promoting industrial developments, but the money would be judiclously and advantageously employed instead of being wasted, as now, to maintain
in power a government of fraud and trickery. An expenditure of that sort would
enable Ireland to get, and to keep, her head
above water, and so exercise and develop
the qualities of her people that she would
be no longer an exhibition for the wonder
and scorn of the nations of the world.
Parnell devoted his speech tonight to the
Tenants' League. He said that this was by
far the greatest and most powerful peaceable movement ever organized in Ireland or
any other country. Although Ireland was
tranquil she was not appeased. She did not
submit. On the contrary, the people's disilke of the government was ten-fold more
intense for the experiences of three years of
coercion. But the country, though it did
not yield, was tranquil because of the faith
it had in the assurances of Glastope that a
triumphant Liberar party would zoon give
it legitimate freadom.
Parnell would not may that it would be

Impossible to govern Ireland by more con-cion, but Balicur's mixture of coercion as constitutionalism would never account them was that he had neglected provide for arrears of rest and for the restitution of evicted tenants. This had led to the forma-tion of the agrarian movement, which would sweep Balfour and his props away as chaff is swept before a whiriwind. If the government had nothing to be assumed of would sweep Baifour and his props away as chaft is swept before a whiriwind. If the government had nothing to be ashamed of in its connection with the Times, doubtless it would gratify curiosity by making known the truth about the matter. The Parnell Commission, instead of trying a personal indictment, had tried the Irish nation and movements of the Irish party.

Parnell declares that all talk about the Protestant ministry being animated by a spirit of hostility to an Irish Parliament is fallacious. He further declares that modified home rule as proposed by Gladstone is preferable to Grattan's scheme, which contained several elements of friction.

MANYSVILLE, Dec. 17.—[By the Associated Press.] Rain fell to the amount of .49 here this morning in a short time, but the skies soon cleared and have remained so. The Yuba River has dropped to the 10-foot mark. Reports from the flooded tule districts are more favorable than at first, and the damage to crops will not be near as great as was anticipated.

great as was anticipated.

Reclamation District No. 70 will be the greatest sufferer. Parties from there today say that at least five-sixths of the whole district is still under water, and that there is no possibility of saving any of the crops, while the damage to buildings and loss to stock will almost ruin a majority there. The families of all farmers have moved out of the district until the waters shall go down and leave the ground so that it can be driven over. The direct loss in this district is now placed at \$75,000.

ing at McNear's warehouse, loading with wheat. Capt. Butler and Mate Stephens, by the use of one sall, backed her into the atream, where she was taken in tow by the steamer Solano and taken to a safe place in the stream and anchored.

Streams were at once played into the hold, but the fire continued to gain headway. The tugs Sea Queen, Relief and Vigilant arrived from San Francisco in response to a telegram for assistance, and the ship was beached. A dozen streams of water were then poured into the hold, it being evident that the only way to save the vessel from total destruction was to flood her.

her.

The Durham was chartered by G. W. McNear to take a cargo of wheat. The cargo will be almost a total loss. The fire is supposed to have been started by men smoking in the hold yesterday. At 10 o'clock this morning it was thought the flames would be soon extinguished.

SAN FRANCISCO, Dec. 17.—The ship Dunham, which caught fire this morning, was flooded and the flames were extinguished. The extent of the damage is not known.

SAN FRANCISCO, Dec. 17 .- On the 25th of SAN FRANCISCO, Dec. 17.—On the 25th of July, 1885, John A. Benson made an assignment, which purported to be the benefit of bis creditors. One of these, George Miller, brought suit to set aside the assignment on the grounds of fraud, and for the purpose of discovering property to satisfy his claim of some \$30,000 and interest. Judge Finn, after a close examination, finds that the assignment was a fraud, as at that time he had valuable property, much more than was necessary to satisfy his creditors.

NEW YORK, Dec. 17.—Stocks today were dull and stagnant for the general list, and the only features were supplied by a few stocks which are subject to special influences. The sensation of the forenoon was the manipulation of sugar refineries, in which there was supposed to be a squeeze of shorts going on. The price of the stock, however, while it opened at 63, was soon sold down to 61, and while the buying de-mand was brisk and a premium of 54 per cent. was exacted for use of fraction over those sold the regular way, there was heavy selling of stock in early trading, at sellers' options of three days, at as much difference as 1 per cent, from regular sales. always been noted for his benevolence and for numerous philanthropic projects that have been carried out under his direction; not one of the least of such projects is his present operation in the arroyo.

Mr. Scoville, in 1886, after looking ever various sections of California with a view to locating, chose the hills bordering on either side of and including the Arroyo Seco, and lying almost directly west of the western terminus of Colorado street, as the most desirable and picturesque spot in the State for the purpose he had in mind.

A DAY'S DRIVE. Every one who visits Pasadena should

take the drive "'round the circle," as it is called, taking in Sierra Madre, Baldwin's, the Mission and Alhambra.

This drive will occupy the greater part of the day and is about 16 or 18 miles, according to the road taken in the vicinity of San Gabriel.

Leaving the center of the city, the drive lies eastward on Colorado street, one of the principal thoroughfares. Handsome business houses line that Handsome business houses line that portion near the center; farther eastward the tall spires of two of the finest churches in the city point heavenward. Beyond these the broad street, 100 feet wide, is lined with the elegant homes of many of the wealthy citzens of the city. Palms and pines, roses and lilies, grow in profusion everywhere, and soon the air will be laden with the fragrance of orange blossoms.

East of Lake avenue the roadway, though not so wide, is still a splendid drive. The graceful popper trees and the tall eucalyptus nod and bow to the passer-by, while here and there the dark spreading boughs of the live oak give the landscape a still more inviting appearance.

Having driven through the town you return to Santa Anita avenue and drive down through the grand grove of live oaks to E. J. (Lucky) Baidwin's lovely home place,

through a lane shaded by beautiful trees. You soon come to the store and warehouses of Mr. Baldwin. To the westward, but some little distance away, are the stables where are being reared some of the finest horses the world ever saw. Indeed, these same stables have already earned a world-wide fame.

A stranger picked up a G.A.R. badge on Banning street, yesterday morning, which was turned over to Sergt. Fletcher of the police force. The owner can get the same by calling at the station.

The matter of widening Temple street, the improvement of the principal thorough fares and other matters of importance will be acted upon at the West End Board of Trade this evening.

Marriage licenses were issued yesterday to the following persons: W. F. McDonell, aged 27, and R. Sanford, aged 18, of La Ballona; Edward Kern, aged 29, and Alice Geary, aged 28, of Los Angeles.

Last night about 9 o'clock several complaints were received by telephone at the police station about loose horses on Third street, between San Pedro and Alameda. The matter will be investigated today.

B. H. Culver of Cleveland, O., who is making a flying visit to the coast, came down from San Francisco yesterday morning and spent the day with his cousin, Capt. F. B. Culver. Mr. Culver lett on his return trip this morning.

Judge Stanton disposed of his usual number of "vage" and drunks yesterday, giving one of them 80 days in the County Jail. The Judges's cast-iron sentences are having a good effect in clearing the city of disreputable characters.

The Police and Fire Commissioners will

The Police and Fire Commissioners will hold their regular weekly meetings at the usual hours in the Mayor's office today. There is considerable business to come be-fore both bodies, and the sessions will prob-

fore both bodies, and the sessions will probably prove interesting.

The Ohler of Police has received a letter from Kate Robinson, White Rock, Kan, with an inclosure for Katherine Churchill, who is supposed to be in Los Angelea. The Calef is requested to use every means for the discovery of Mrs. Churchill, as the letter for her is an important one.

De Bard, the man who came to the police station a few days ago suffering from a losthsome disease, was sent to the County Hospital last evening. The man is in a frightful condition. He is unable to walk, and is almost helpless, and if something is not done for him at once he will probably die.

not done for him at once he will probably die.

W. H. Compton writes from Toronto, Canada, asking whether it is true, as he has seen by reports in the papers, that his brother, Charles R. Compton of Oak Grove, Cal., was killed in a railway accident near Los Angeles. The records of the Coroner's office do not show that an inquest has been had an any such man.

Signet Chapter No. 23, R.A.M., celebrated the installation of officers last night with a banquet in the dining-hall of the lodge, in Masonic Temple, at the corner of Spring and First streets. There were speeches by a number of the members and a general good time was had.

Coroner Meredith has received a letter from Junction City, Kan., asking for information about one J. B. Henderson, who is said to have committed suicide here after shooting a woman. The letter states that an account of the tragedy was published in a Chicago newspaper. The records of the Coroner's office show nothing of this sort, nor did any one ever hear of it.

Among the arrivals at the Hollenbeck

Among the arrivals at the Hollenbeck yesterday was Gen. M. Brayman of Kansas City. Gen. Brayman was an intimate friend of the late President Abraham Lincolo, and was at one time one of his closest personal advisers. Gen. Brayman is now a very old man, and makes this trip to the coast for pleasure and recreation.

Dieasure and recreation.

B. F. Gardiner has demonstrated what can be done in Los Angeles in a small business. Three years ago he opened a small news stand on Spring street, and although he had to compete with the newsboys, he has built up a large trade in papers and periodicals. He has now sold out, with the intention of opening a larger store in the business center, where will be kept every large paper and periodical in the world.

J. M. MacKelbath, a mail agent on the Southern Paclife road, raised a disturbance at the Arcade depot, yesterday afternoon.

Southern Pacific road, raised a disturbance at the Arcade depot, yesterday afternoon, about 5 o'clock, and finally became so noisy and boisterous that, by orders of Assistant Superintendent Mult, he was placed under arrest by Special Officer Seekatz, and taken to the police station, where he was booked for disturbing the peace. He put up \$20 bail for his appearance when wanted, and was released.

or his appearance when wanted, and was released.

The regular monthly inspection of the police force was held yesterday morning on Third street, between Hill and Fort. Including the mounted men and patrol wagon men, 72 turned out. The force is now all uniformed, and the men presented a fine soldierly appearance. The effect of the weekly arillis was also noticeable in the improvement in marching. Among those present were Mayor Hazard, Commissioners Dexter and Lewis and Councilman Van Dusen, all of whom expressed themselves as highly pleased with the turnout, and complimented Chief Glass on the improved discipline and appearance of the men since he took charge.

Red Rice, the furniture man, had a narrow escape from serious injury yesterday afternoon. Mr. Rice was driving down First street about 4 o'clock in a buggy, accompanied by a lady, when he met a cablecar coming in an opposite direction.—Just about the time they met the street was blocked on one side by some heavy trucks, and at the same time the police patrol wagon came along. There was not room enough for Mr. Rice to turn out, and the ear struck his buggy, taking off one of the wheels, and throwling Mr. Rice and the lady to the ground. Fortunately neither of them sustained any injuries beyond a few bruises.

TAKE CARE

Of the dime and the dollar will take care of itself. We commend that proverb to you as a purchaser. It is the little foxes that spoil the grapes, the little leaks that sink the ship, the little extravagances that dribble away the earnings.

SAVE THAT DIME

And you are on the high way to comfort. Don't desire the dollars and despise the dime. You can't have the dollar without the dime, any more than you can have a pound without the ounce, or a yard without the inch.

WE WILL HELP YOU

Save a dime on every dollar you spend in trade if you spend it with us. This is no empty boast. We mean that we will give you goods that equal any others and will sell them one dime on the dollar less than any other marchant. How
